SB-3108

Loss Prevention

A simple, practical foundation for reducing loss from customer theft, employee theft, and the shrinkage neither one alone explains.

SERIES 3000 • FOUNDATION • V1.0 • FREE PREVIEW

SIMPLE. PRACTICAL. TRANSFERABLE.

Why This Matters

Shrinkage rarely has one cause. Most organizations only have visibility into the piece they're already watching for — usually customer theft — while employee theft and administrative error go unmeasured.

Loss Prevention brings both sides under one documented program: how the organization deters and detects customer theft, how it prevents and investigates employee theft without treating every employee as a suspect, and how it tracks shrinkage precisely enough to tell the two apart.

What's Inside the Full System

SB-3108 is a complete 10-section operating system — Policy, Standard Operating Procedure, Roles & Responsibilities, Forms, Checklists, an Audit Tool, a KPI Dashboard, an Executive Summary, and an AI Prompt Pack — built to be implemented, not just read.
