

THE SECURITY BLUEPRINT™

SECUREOPS™

SB-4105

Medical

A simple, practical foundation for responding to a medical emergency
in the first few minutes, when it matters most.

SERIES 4000 • FOUNDATION • V1.0 • FREE PREVIEW

SIMPLE. PRACTICAL. TRANSFERABLE.

Why This Matters

A medical emergency is far more likely on any given day than a security incident. What determines the outcome is usually how fast someone trained responds.

Medical is the system that answers three questions before anything happens: who on-site is trained to respond, what equipment is in place, and how does the facility get emergency services there as fast as possible.

What This System Covers

Emergency
Response & First

AED & Medical
Equipment

Notification &
EMS Coordination

Documentation &
Privacy

What's Inside the Full System

SB-4105 is a complete 10-section operating system — Policy, Standard Operating Procedure, Roles & Responsibilities, Forms, Checklists, an Audit Tool, a KPI Dashboard, an Executive Summary, and an AI Prompt Pack — built to be implemented, not just read.
