SB-2102

Physical Security Surveys

Walk the site on a regular cadence and catch small physical gaps
before they become the incident.

SERIES 2000 • FOUNDATION • V1.0 • FREE PREVIEW

SIMPLE. PRACTICAL. TRANSFERABLE.

Why This Matters

A Facility Risk Assessment happens once every year or two. Physical conditions don't wait that long — a burned-out light, a propped door, or an overgrown hedge blocking a camera can decay silently in between, until someone finally walks past it.

Physical Security Surveys is the short, regular walkthrough that catches those changes early. It's a simple, repeatable physical-conditions check — not a maturity score or a roadmap — that any site-level employee can run on a monthly or quarterly cadence.

What This System Covers

What's Inside the Full System

SB-2102 is a complete 10-section operating system — Policy, Standard Operating Procedure, Roles & Responsibilities, Forms, Checklists, an Audit Tool, a KPI Dashboard, an Executive Summary, and an AI Prompt Pack — built to be implemented, not just read.
