

THE SECURITY BLUEPRINT™

SECUREOPS™

SB-3109

Cargo & Supply Chain Security

A simple, practical foundation for protecting freight from the dock door to final delivery — and knowing exactly who touched it in between.

SERIES 3000 • FOUNDATION • V1.0 • FREE PREVIEW

SIMPLE. PRACTICAL. TRANSFERABLE.

Why This Matters

Cargo theft doesn't usually look like a break-in — it looks like a legitimate-seeming pickup or a load that's short by a pallet no one notices until it's three facilities downstream.

Cargo & Supply Chain Security closes the gap between "the freight left our dock" and "the freight arrived where it was supposed to": dock and yard security, load and seal integrity, chain-of-custody documentation, and how to evaluate a carrier on more than price.

What This System Covers

Dock & Yard
Security

Load & Seal
Integrity

Chain-of-Custody
Documentation

Carrier &
Logistics

What's Inside the Full System

SB-3109 is a complete 10-section operating system — Policy, Standard Operating Procedure, Roles & Responsibilities, Forms, Checklists, an Audit Tool, a KPI Dashboard, an Executive Summary, and an AI Prompt Pack — built to be implemented, not just read.
