

THE SECURITY BLUEPRINT™

SECUREOPS™

SB-6106

Travel Security

A simple, practical foundation for keeping every traveling employee — not just leadership — prepared, tracked, and supported on the road.

SERIES 6000 • FOUNDATION • V1.0 • FREE PREVIEW

SIMPLE. PRACTICAL. TRANSFERABLE.

Why This Matters

Executive Protection covers a small group of leaders. But most business travel isn't executive travel — it's the sales rep flying somewhere unfamiliar, with no organizational visibility into where they actually are if something goes wrong.

Travel Security extends the same duty-of-care thinking behind Executive Protection to the entire traveling workforce: pre-trip risk review scaled to the destination, tracking who's traveling where, and what happens if a trip is disrupted.

What This System Covers

Pre-Trip Risk
Review

Trip
Registration &

In-Transit & On-
Site Safety

Disruption &
Emergency

What's Inside the Full System

SB-6106 is a complete 10-section operating system — Policy, Standard Operating Procedure, Roles & Responsibilities, Forms, Checklists, an Audit Tool, a KPI Dashboard, an Executive Summary, and an AI Prompt Pack — built to be implemented, not just read.
