SB-4101

Workplace Violence

A simple, practical foundation for recognizing warning signs, reporting concerns, and responding before a situation escalates.

SIMPLE. PRACTICAL. TRANSFERABLE.

Why This Matters

Workplace violence rarely begins with the incident everyone fears. It begins earlier — an escalating conflict, a customer who won't stop pushing back, or a change someone doesn't take well.

Workplace Violence is the system that answers three questions before anything happens: how does a concern get reported, who is responsible for assessing it, and what does the organization do next.

What's Inside the Full System

SB-4101 is a complete 10-section operating system — Policy, Standard Operating Procedure, Roles & Responsibilities, Forms, Checklists, an Audit Tool, a KPI Dashboard, an Executive Summary, and an AI Prompt Pack — built to be implemented, not just read.
